Version 1.0

Train Smart.
Act Confidently.

The Guided Multi-Level Emergency Response (ER) Training & Learning Simulator

Designed to build essential skills for life-saving situations, Flashgroup Elementary focuses on learning, guided practice, and performance analysis.

It effectively prepares users for a wide range of emergency scenarios, from fire safety and first aid, to advanced ER procedures such as aggression training, to CPR and AED practices. All that by offering structured lessons and actionable feedback.

- Designed with **experts**
- Driven by real **user data**
- **Standalone** product
- Three **training modules**
- Based on **real ER scenarios**
- Worldwide recognized **ER principles**
- Tailored to **industry-specific needs**

Module
Extinguisher Trainer

This module focuses on the proper use of fire extinguishers in various emergency situations. You will understand the different **classes of fires,** select the **appropriate extinguisher** for each scenario, and **master the techniques** for safe and effective extinguisher use.

Module
ER Courses

Our comprehensive ER courses cover a wide range of first responder skills. Each course is divided into lessons that guide you through every step of emergency management. The courses are organized using the AAA Training Model: **Analyze, Act, and Adapt.**

Module
CPR & AED

In this module, you will learn how to respond in an emergency effectively. Discover how to **perform CPR correctly, use an AED,** and **quickly call for help.** Through hands-on scenarios, you will gain the knowledge and skills needed to make a difference in a critical situation.
