All firefighters are trained to help the public, but few are prepared to rescue each other in the event of an emergency.

When a Mayday is declared on the fireground, your rapid intervention team can make the difference between life and death for downed colleagues.

The *Rapid Intervention Series* is a two-part presentation of the knowledge and skill requirements of NFPA 1500, OSHA 29 CFR 1910.134 as well as technical expertise from New York City (technical advisor - Dan Hayde) and Phoenix Fire Departments (technical advisor - John Hinton).

The series makes an excellent teaching companion to IFSTA / FPP's *Rapid Intervention Teams, 1st Edition,* by Jakubowski & Morton.
