

Sim Lab in a Box: It just works.

One box with 10 headsets charged and ready to deploy.

We understand you don't have time to figure out the logistical nightmare that comes with virtual reality simulation. So, we did it for you.

VRpatients' Sim Lab in a Box is your easy solution to enter the world of VR simulation. Whether you choose the Meta Quest 2 or the Pico 4E headset, each box is meticulously kitted and provisioned with you in mind. Complete with a printed step-by-step user guide, 2yr extended warranty, and all your software pre-installed to manage and deploy. Simply open the box and start simulating. Your IT department will love it because, it just works.
