

Sim Lab in a Box: One Box, Limitless Possibilities

This portable sim lab is the modern educator's turnkey solution for the future of clinical simulation. We know entering the world of immersive VR simulation is a logistical nightmare! Don't worry, we've got you. Let us handle the logistics so you can focus on increasing your clinical outcomes. VRpatients' Sim Lab in a Box is your plug-and-play solution to navigating the technical landscape of VR with ease.

Low price guarantee: We're not hardware resellers, but your partners in success, offering you an uncomplicated route into the world of VR. Our low price guarantee means this solution is based on hardware MSRP and labor costs, no upcharges.

Anticipate 4-6 weeks for delivery, and rest assured that your VR headsets arrive ready for immediate use.

VR headset of your choice, each box is meticulously kitted and provisioned with you in mind. Complete with user guide, extended warranty, and software pre-installed, simply open the box and start training. We aim to strip away the complexities and leave you with a seamless, stress-free experience.
